

# CMM System - Subrack 14880

SPM 14880 is a standard 19 inch subrack for up to twelve CMM monitoring modules (7HP) or ten monitoring modules plus the power supply unit SMR-50 (14HP). The subrack has an open back plane for cable connections.

Empty spaces can be filled up with blank front panels, SPM 81335 (3U x 7HP). The subrack is delivered complete with bottom plate, vented top plate and twelve module slots for mounting of CMM rack modules.
